

Andronis Concept Wellness Resort - NR ★★★★★

The five-star Andronis Concept Wellness Resort is the only resort of its kind in Santorini, which surprises its visitors with a palette of ochre and dark gray color inspired by the volcanic landscape of the island, as well as its architecture, which creates the impression of a giant sculpture. It also boasts exceptional spaciousness, a rare treasure even among the most luxurious hotels in Santorini. Andronis Concept is located in a stunning location on a cliff overlooking both sides of the island, on the outskirts of Imerovigli. In front of the hotel there is a famous walking path that connects the cities of Oia and Fira. The hotel has got its own vineyard and garden and on its territory you can see a series of modern works of art. It offers three pools, a huge spa, a cave cinema, immaculately decorated suites, a helipad and the restaurant "Throubi", which promises a unique gastronomic experience. Andronis Concept is one of the few hotels in Santorini that accepts families with children. It provides household amenities for families with children, as well as special children's yoga and spa programs, cooking courses and more.
